STOCKPILE ISSUES FERROCHROMIUM AMENDMENT

Fort Belvoir, VA - The Defense National Stockpile Center today announced that Amendment No. 005 to Solicitation of Offers, DLA-FERROCHROMIUM-004, BASIC ORDERING AGREEMENT (BOA) FOR FERROCHROMIUM has been posted to the DNSC web site. This amendment adds to the shopping list Sharonville, OH material which consists of two piles of high carbon ferrochromium totaling approximately 52,658 short tons. Customers are encouraged to sample this material before it is offered for sale.

The amendment also returns to the shopping list approximately 2,900 short tons of Ravenna, OH low carbon ferrochromium, which has been reclassified as 0.15% carbon grade.

For copies of the amendment which adds material to the shopping list, material analysis, and storage locations please visit our web site: <https://www.dnsc.dla.mil>.

For other inquiries please call Angela Mattox at (703) 767-5515.
